

Grant Register Volume Numbers

The Grant Register contains Crown grants. The registers are made up of a mixture of handwritten copies and typed or written extracts of the original grants. The Grant Registers were grouped in various series, such as Town Purchases, and in volumes, which were given a distinguishing letter or number for that series, or referred to by the year of the grant e.g. 1861 Land Purchases.

Over time, the Grant Register was compiled from various sources, such as from the Office of the Colonial Secretary. As a result, some of the original books had an old serial/ volume number on the middle of the spine. Some of these numbers were referenced in older documents such as Primary Applications.

The Grant Register volumes were later renumbered to the current NSW LRS serial/ volume number. The Grant and supplementary index refer to the current serial number and this is how they are available in the Historical Land Records Viewer (HLRV).

The following table shows the old volume numbers compared to the new numbers to assist with the search and discovery of the grants, and help check that the correct grant is being ordered.
