

## Guidance for lodging a Dealing with Exception document

### Dealing with Exception was formerly known as the Paper Dealing

Subscribers can lodge paper Real Property Act dealings using the Dealing with Exception document via PEXA. This document will be used when lodging mandated documents which are eligible for a Conveyancing Rules Exemption as well as dealings which are not available as mainstream or residual documents. Dealing with Exception documents can be lodged in combination with all residual documents in the same PEXA workspace.

If eligible for lodgment through the Dealing with Exception option, the appropriate document type is selected in the PEXA workspace and the corresponding paper Real Property Act dealing will be attached in PDF format. All required supporting documentation must be included in the attachment where applicable. All mandated documents must be accompanied by a completed [Conveyancing Rules Exemption Form](#).

**Please Note:** If you are seeking to lodge multiple Dealing with Exception documents in the same PEXA workspace, then separate documents must be created, and the corresponding paper dealing must be uploaded against each Dealing with Exception document type. For example, if two Lease (07L) documents are to be lodged through the 'Dealing with Exception' option in the same workspace, then the document type (Lease (07L)) must be selected twice in the PEXA workspace and each paper copy must be uploaded against the corresponding document. If more than one document is included in a single upload, a requisition will be raised by NSW LRS requesting for separate lodgment(s) to be made for the additional document(s) included in the 'Dealing' attachment.

Examination by LRS will be based upon the paper dealing attachment and all paper dealing requirements must be satisfied. Please refer to the Registrar General's Guidelines for all requirements: [https://rg-guidelines.nswlrs.com.au/land\\_dealings/dealing\\_requirements](https://rg-guidelines.nswlrs.com.au/land_dealings/dealing_requirements).
